Foil Stamping Description:

Foil stamping uses heat and metallic film in a specialty printing process that produces a shiny design on paper, vinyl, textiles, wood, hard plastic, leather, and other materials. Foil stamping, also called hot stamping, dry stamping, foil imprinting, or leaf stamping, can be combined with dimensional embossing to make letters and images on business cards, book covers, gift cards, office

folders, and a whole host of professional or personal items. **Paper gift bag** also use Hot stamping and improve products quality.
